

Digital and financial wellness for today's workforce

Norton LifeLock Benefit Solutions helps empower employees to stay protected, connected, and confident.

Help employees live safer and more secure digital lives

Identity and Financial Protection

Safeguard an employee's identity and financial accounts with proactive monitoring and alerts that help detect fraud, suspicious activity, and potential misuse before it escalates.

Digital Protection

Prevent scams, malware, and cyberthreats with advanced AI-powered technology that keeps an employee, their family, devices, and personal information safer.

Privacy Online

Employees can defend their digital footprint by securing accounts, protecting sensitive data, and browsing safely to reduce exposure to cyber risks.

Financial Wellness

Boost financial confidence and understanding with tools that provide insight into credit monitoring, spending categories, and ways to form smarter habits.

The broader impact of cyberthreats:

- Emotional strain and stress from identity theft can lead to lost productivity and absenteeism.
- Financial loss and fraud can impact long-term well-being.
- Work-life disruption happens when employees spend time at work resolving personal cyber issues.
- Physical risk can occur if personal addresses or data fall into the wrong hands.

Did you know?

74% of scam victims were impacted financially.¹

Every 5 seconds, there is a victim of identity theft.

~17 hours identity theft victims spend trying to resolve the fraud.²

~21 hours scam victims spend resolving issues caused by the scam.²

Today's digital threats are more personal, and the effects can ripple across every aspect of an employee's life.
